

Study of Great Horned Owl
By Jon Riedeman

September 22, 2022

Norfolk Community Association News....

Village Improvement Together!

Our secret is out! We hope we've piqued your curiosity about the NCA's first public sculpture installation. Norfolk's own Jon Riederman is busy at work creating a bronze owl which will enhance Norfolk's reputation as a place where art meets nature. We hope to install this lifelike sculpture in Norfolk's Town Meadow where the public can delight in its realism. Our goal is to connect Norfolk's village pathways with visual points of interest to encourage public exploration and engagement.

Your support for this project will ensure its success.

Thank You!
